

# **CERTIFICATE OF COMPLIANCE**

**for all series and products**

**we confirm compliance with the following requirements:**

Directive 2011/65/EU (formerly 2002/95/EC) - (Restriction of Hazardous Substances – RoHS)

According to information of our raw material suppliers the ingredients of our products contain less than 100 ppm for the total of lead, cadmium, mercury and hexavalent chromium. This is why they meet the regulations of the current German Packaging Law, the European Packaging Regulation 94/62/EC and adaptations as well as the CONEG Regulations. We do not use any ingredient with the mentioned metals being a constitutional part thereof.

According to information of our raw material suppliers the ingredients used to manufacture the above mentioned products do not contain polybrominated biphenyls (PBB's) or polybrominated diphenyl ethers (PBDE's). We – A. M. Ramp & Co GmbH – do not use this kind of chemicals at all.

So the listed products are in compliance with the requirements of the named directive and in compliance with Article 4(2)(a) of the End-of Life Vehicles Directive 2000/53/EU.

**A.M. RAMP & Co GMBH**  
RUCO Druckfarben
