Certificate of compliance for series T200

Dear Sir or Madam,

we would like to confirm compliance with the following requirements for series T200:

- does not contain cyclohexanone and aromatic hydrocarbons (solvents).
- does not contain phthalates according to Directive 2005/84/EC and Regulation (EC) 1907/2006 Annex XVII.
- does not contain Bisphenol-A , BPA (4,4 '-Isopropylidendiphenol, CAS RN: 80-05-7 and BPA based substances as intentionally added ingredient. This in line with the recommendations of FR Law 2012/1442. Traces of these substance in the products <0.01%) coming from raw material impurities, from the process or as adventitious contaminants cannot be excluded.
- does not contain Perfluorooctanesulfonic acid (PFOS) and Perfluorooctanoic acid (PFOA). In general, we do not use any perfluorinated wetting agents, which are classified as persistent, bioaccumulative and toxic for mammals.
- the above mentioned products are suitable for printing on the reverse side of food packaging; RUCCO could prove that material decorated with products of T200 - processed in an appropriate and professional way - will meet the requirements of article 3 of Regulation (EC) 1935/2004 ("EC-Framework-Regulation").
- the different shades of printing ink series T200 are manufactured in accordance with the requirements of Regulation (EU) No. 10/2011 - on plastic materials and articles intended to come into contact with food - . Further information (Statement of Composition, SoC) can be made available if needed.
- the T200 series meets the requirements of CFR- Code of Federal Regulations Title 21 (21 CFR part 174-186).
- all ingredients respectively their starting agents are listed in Annex 10 of Swiss Ordinance – 817.023.21 - on Materials and Articles in Contact with Food.
- EuPIA-Exclusion policy for printing inks and related products (current version).
- the above mentioned products meet the Regulation (EU) 2023/2006 covered by the EuPIA-GMP (Good Manufacturing Practices for the Production of Packaging Inks formulated for use on the non-food-contact surfaces of food packaging and articles intended to come into contact with food, March 2009).
- EN 71-3: 2014-12 Safety of toys - Part 3: Migration of certain elements.
(Please contact us for silver or gold shades)

The data are based on our current knowledge.

- Directive 2015/863/EU (formerly 2011/65/EU) - (Restriction of Hazardous Substances – RoHS).
- compliant to the current requirements of industrial standards (e.g. Nestlé Guidance Note on Packaging Inks).
- compliant to requirements of current GADSL (Global Automotive Declarable Substance List).
- meets the criteria of USP guidelines for Medical Class VI Plastics (21 CFR part 58). Tested with T200-9002.
- the above mentioned products do not contain substances based on Genetically Modified Organisms (GMO) (see: Directive 2001/18/EC of the European Parliament on the deliberate release into the environment of genetically modified organisms) to the best of our knowledge.

We hope we could be helpful with this information.

Kind regards

A.M. Ramp & Co GmbH
